Definition of Assesment to Sales Ratios

Assessment to sales ratio divides a sale price into the into the assessed value. Ratios above 100% indicates property assessed above the sale price. Ratios below the assessed value indicate that the assessment is below the sales price.

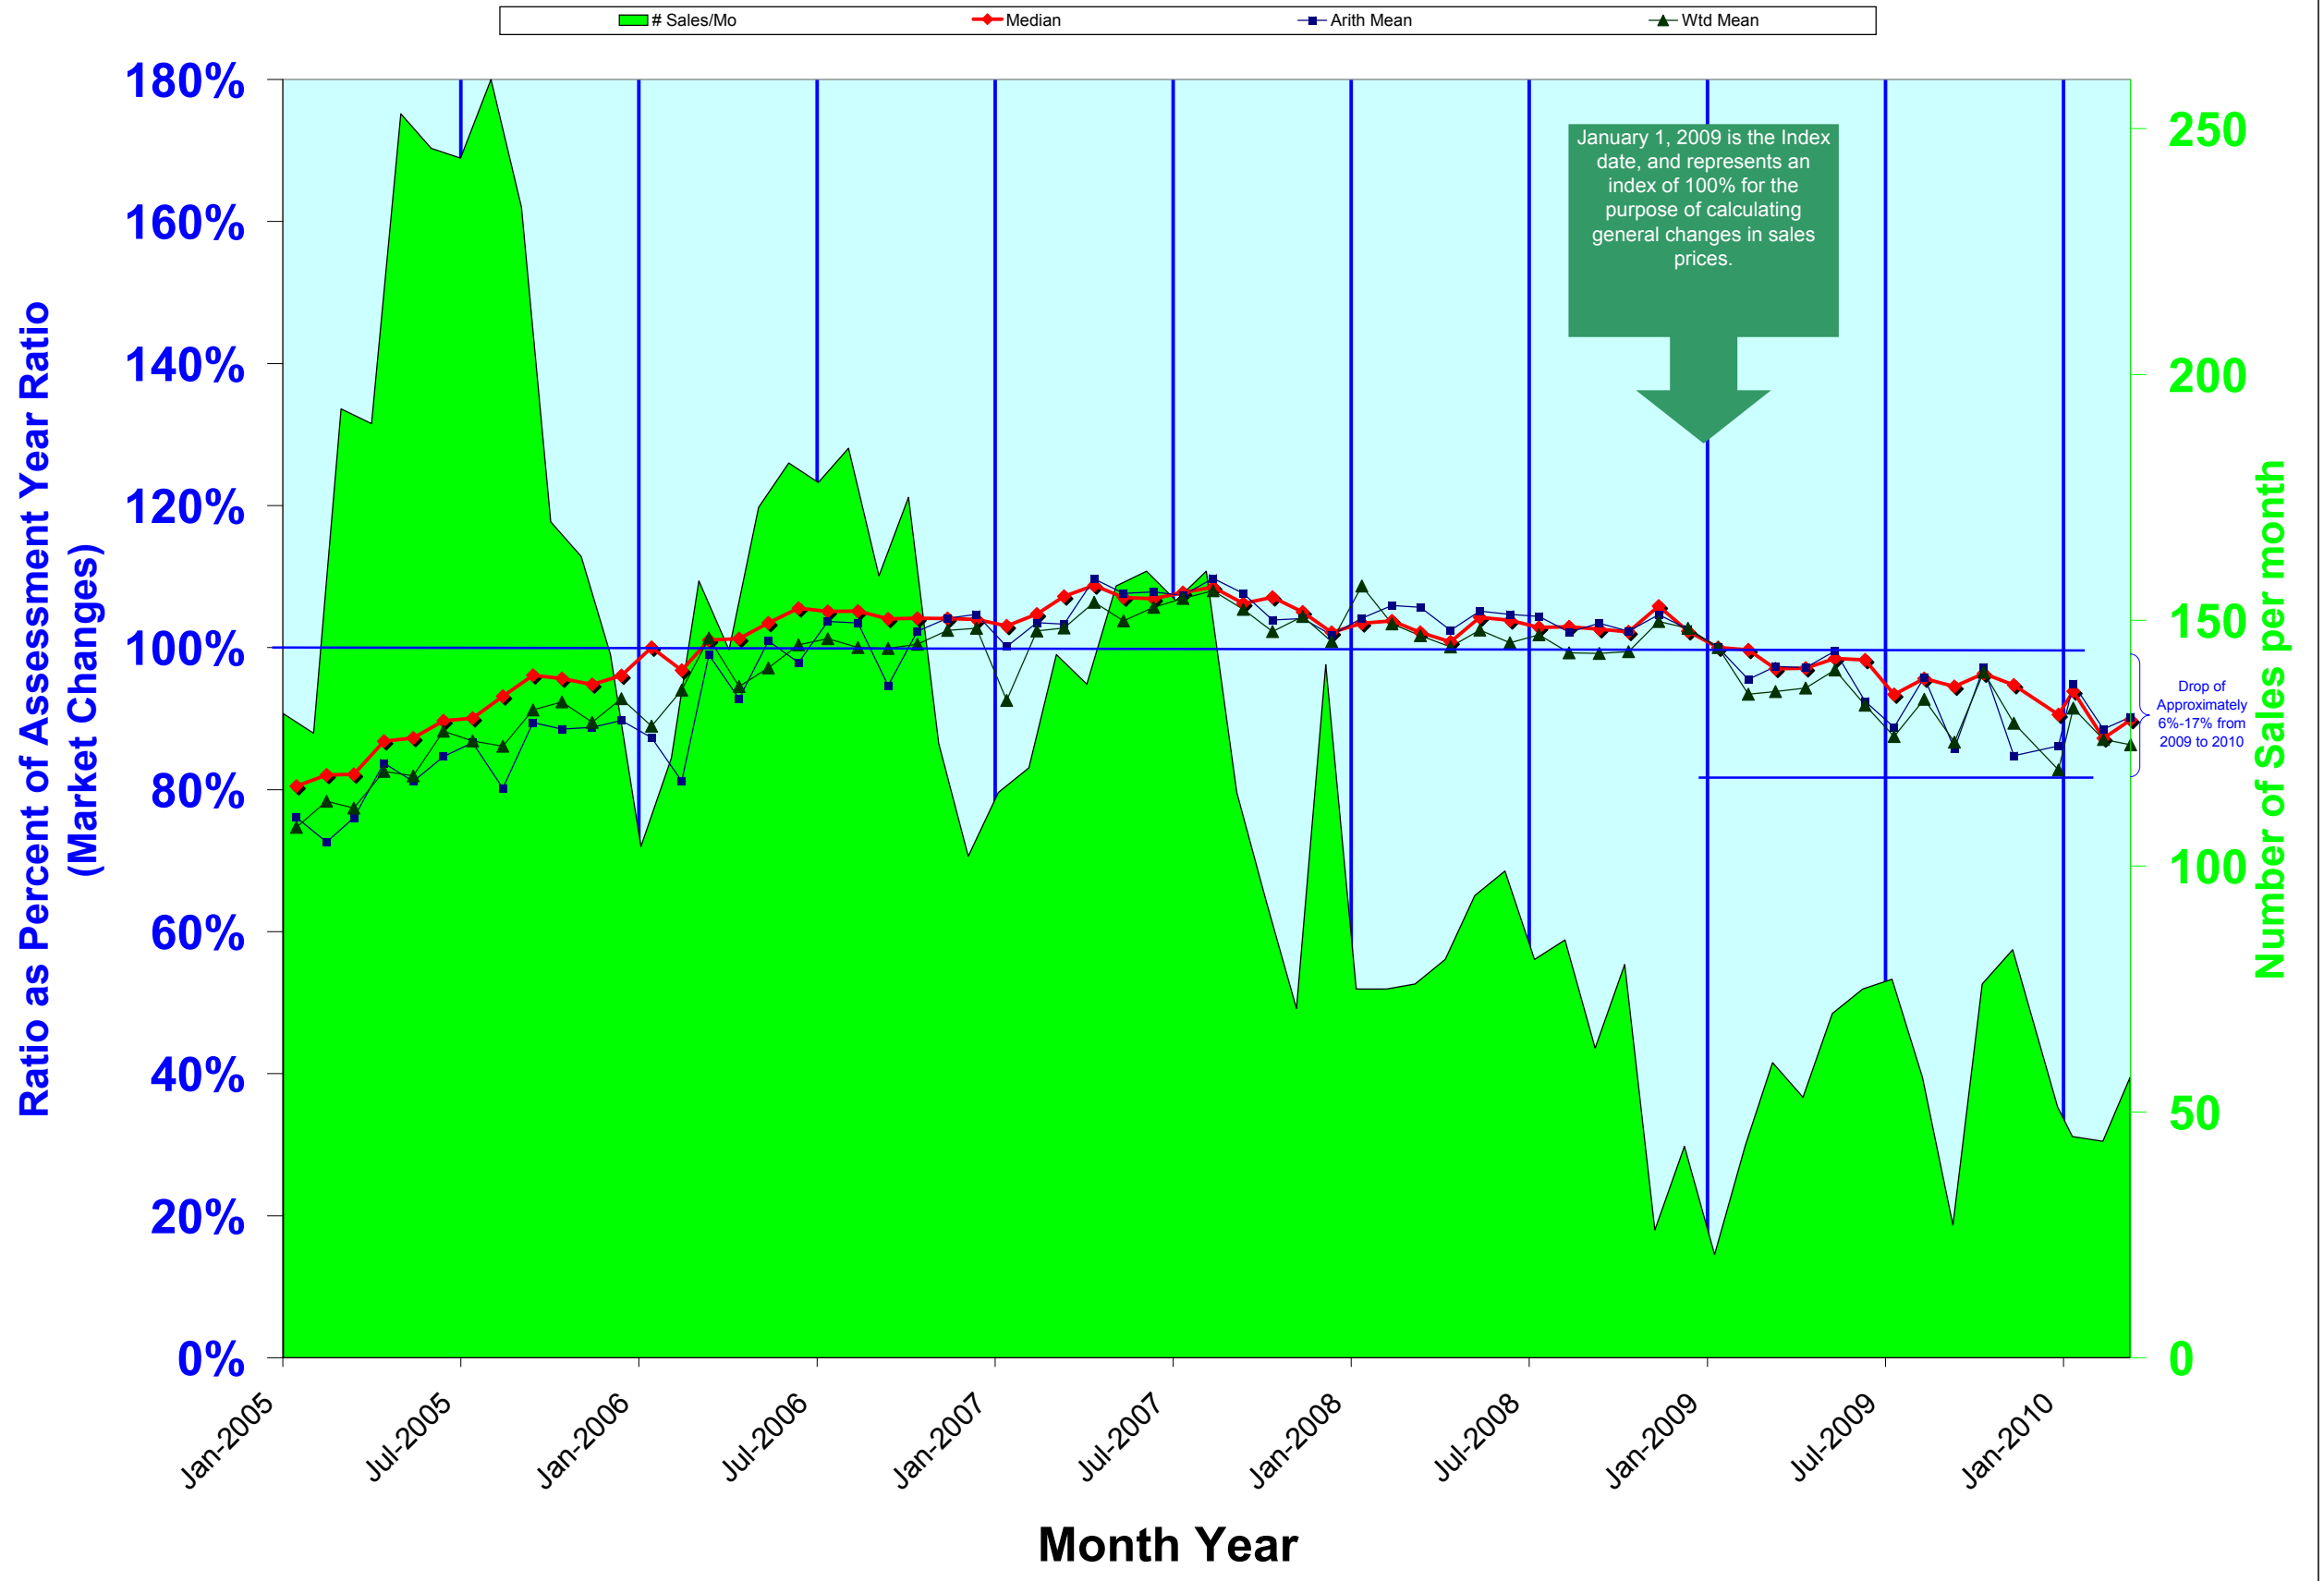

Median is the middle ratio for an odd number of sales the average of the two middle ratios for an even number of sales when sales are arranged from highest to lowest.

Arithmetic mean is the average of all of the individual assessment to sales ratios

Weighted mean is the total assessed value of the properties that sold divided by the total sales as of a particular assessment date.

Total Sales  
**7,444**

Sales Trends Indexed as a Percentage of 2009 Assessment to Sales Ratio For All Improved Sales Except Manufactured Homes Jan 2005 - March 2010

January 1, 2009 is the Index date, and represents an index of 100% for the purpose of calculating general changes in sales prices.

Drop of Approximately 6%-17% from 2009 to 2010
