A Pre-Application Conference is a meeting that a future applicant schedules with Island County staff members to discuss a potential land use development proposal before submitting a formal application. At the meeting, the staff describes the county standards, processes, and regulations that would apply to the proposal described in the materials they have received. The applicant has an opportunity to ask questions of the county staff and to learn more about the proposal. Staff from county Health, Engineering, Planning, and Building attends the meeting. Other staff from the federal, state, or city jurisdictions may be asked to attend to help with specific issues.

The conferences are held on the second and fourth Thursdays of each month. A meeting is scheduled after this application and associated materials are completed and submitted to the Planning and Community Development Department. It is scheduled on a “first come-first serve” basis, at least three weeks after the pre-application materials are submitted. No fee is required.

If the proposed land use is a cellular communication tower or a Type III Conditional Use, the applicant needs to advertise, hold and create a record of a Community Meeting. This must be completed before an applicant requests a Pre-Application Conference. Information about the requirements for a Community Meeting is available in Development Information Bulletin (DIB) #106. The DIB is available at Island County Planning and Community Development or on the division web page: www.islandcounty.net/planning/

If you have any questions before you submit your Pre-Application form, please call our office at one of the numbers listed above.

Remember that the more information you provide, the better the staff can prepare and the more you will learn at the meeting.

SUBMITTAL OF AN APPLICATION:

- Can be submitted in person or by mail at either of the following locations during the following hours:

<table>
<thead>
<tr>
<th>Coupeville</th>
<th>Camano</th>
</tr>
</thead>
<tbody>
<tr>
<td>Monday – Friday</td>
<td>Monday – Friday</td>
</tr>
<tr>
<td>8:00 am – 2:00 pm</td>
<td>8:00 am – 11 am, 1:00 pm – 2:00 pm</td>
</tr>
</tbody>
</table>

  By Mail

  Island County Planning Department
  PO Box 5000
  Coupeville, WA 98239

- Anticipate that the submittal process can take 30 to 60 minutes
Please type or neatly print all information and provide the signatures in blue ink. Take your time to provide detailed answers and all of the information requested.

Assemble this application together with all maps and necessary documentation outlined in this application to create one organized, complete application package. Then make four complete copies of the package. Submit the original and the 4 separate, collated copies of the application packages to Island County Planning & Community Development. The county may request additional application packages if review by additional agencies is necessary.

PART B
PRE-APPLICATION CONFERENCE (PRE)

In addition to the information requested in Part A, please answer the following questions and provide a map of the proposal. **By providing answers to the following questions, the staff will better understand your proposal and be able to prepare for your meeting.**

**General Site Information.** Please describe the existing parcel(s) and land use(s). You may attach a separate sheet to supplement your description.

1. **Describe the EXISTING structures, uses, and other improvements on the site.**

   ____________________________________________________________________
   ____________________________________________________________________
   Ấn

   * What is the total acreage of the site? ____________________________
   * Square footage of the existing building footprints: ___________________
   * Total square footage in all stories: ____________________________
   * Number of Stories: ____________ Building Height: ___________________
   * Percent of site covered by impervious surfaces: ___________________

2. **What is the existing source of water?** ____________________________

3. **How is the existing sewage disposal handled?** ______________________

4. **Describe the type and locations of the topography on the site. (e.g. Areas that are flat, gently sloping, steep, very steep, and/or depressed.)** ____________________________
   ____________________________________________________________________
   ____________________________________________________________________

5. **Describe the characteristics of the soils on site (clay, sand or loam).** ____________
   ____________________________________________________________________

6. **Are there areas with mature vegetation, steep slopes or critical areas such as wetlands, streams, or geologically hazardous unstable slopes? If so, please describe the types and locations.** ____________________________________________________________________
   ____________________________________________________________________

7. **Is the project site within 200 feet of the shoreline?** ______________________

8. **Existing Access. What public or private roads are adjacent to or on the site?**
   **Describe the location of existing access point(s), driveway(s), and access and/or utility easements.** ____________________________________________________________________
   ____________________________________________________________________
   ____________________________________________________________________

**Plan/Map of the Proposal.** Provide a conceptual plot plan of your proposal. It should be drawn to scale and it should clearly show your property boundary lines, existing natural features and topography, shorelines and other critical areas, existing and proposed structures and land uses, vegetation, existing water and sewage disposal systems, and the existing and proposed access. Please use the checklist on page B-4 of this form to help you draw your plan/map.
Description of the Proposal

1. **Proposed Land Uses.** Answering the following questions will help the county staff understand your proposal. Please be sure to provide details and to describe the existing and proposed land uses and any features that are not identifiable in map form. You may use a separate sheet to provide additional information.
   a. Describe each proposed land use in detail. Are they residential, commercial, industrial, storage, utilities, bulkheads, stairways, docks or piers, or other? Describe the structure design; include factors such as siding, roofing and/or construction materials, roof type (gable, hipped, flat, etc.), and architectural style.

   ____________________________________________
   ____________________________________________
   ____________________________________________
   ____________________________________________
   ____________________________________________
   ____________________________________________

   b. **Proposed Structures.** Describe the proposed structures.
   * Total square footage of existing and proposed footprints: _______________
   * Total square footage in all proposed stories: _________________________
   * Structure Height: _______________ Number of Stories: _____________
   * Percent of site to be covered by impervious surfaces: _________________
   * Distance from shorelines or other critical areas? ______________________

   c. **Residential Uses?** How many dwelling units are proposed? ___________
   Describe the type of dwelling units proposed (single family detached, duplex, triplex, townhouse, etc.) ________________________________
   What is the proposed density (the number of units per acre)? ___________

2. **Land Division.** Does the proposal include the division of land to create lots?
   Yes _____ No _____ **If yes,** please answer the following questions:
   * How many separate parcel numbers exist today? _________________________
   * On what date was the existing parcel(s) created? ______________________
   * What is the total number of separate parcels that is proposed? __________
   * How would the new parcels be accessed? ________________________________

   * Describe the location and amount of area to be cleared and/or graded?
   ____________________________________________
   ____________________________________________
   ____________________________________________

   Please show the proposed lot lay-out, access, and areas of clearing and grading (excavating) on the map.

3. **Proposed Access.** Describe the proposed access onto public and private roads.
Are new roads intended to be private or public?

__________________________________________________________________
__________________________________________________________________
__________________________________________________________________
__________________________________________________________________
______________________________________________________________

4. **Proposed Source of Water.** What is the proposed source of water supply for the proposed use or land division? If the site is within the boundaries of an approved water system, what is the system and has it committed water to the proposed use?

__________________________________________________________________
__________________________________________________________________
__________________________________________________________________
__________________________________________________________________
______________________________________________________________

5. **Proposed Sewage Disposal.** What is the proposed method of sewage disposal for the proposed use or land division? If the site is within the boundaries of an approved sanitary sewer district, what is the system and has it committed service to the proposed use?

__________________________________________________________________
__________________________________________________________________
__________________________________________________________________
__________________________________________________________________
______________________________________________________________

Please provide any additional information that you believe will help the staff understand your proposal. This will ensure you receive the most accurate information available at the time of your meeting. Items such as As-builts, site registrations, well site inspections, photographs, geology reports, wetland delineations, drainage reports, or other information you have would be very helpful.

I hereby certify I am the owner or the authorized agent named above, and that I have familiarized myself with the rules, regulations, and procedures with respect to preparing and filing this application. All statements, answers and information provided as part of this submittal are in all respects complete, true, and accurate to the best of my knowledge and belief. I understand that if I provide incomplete and/or incorrect information, this will cause a delay in the review process.

*If there is not enough space for all property owners’ signatures, or if an agent is submitting the application, a notarized letter of consent signed by all owners shall be attached to this application.
**APPLICANT AUTHORIZATION FORM**

If you are authorizing an agent to apply for permits on your behalf, you must either sign each of the applications that you submit or complete this form, which will provide authorization for a designated agent to apply for permit(s) on your behalf. This form is required for the protection of the property owner. Planning and Community Development will not accept an application that is not either signed by all property owners or accompanied by this form. **All original signatures shall be in blue ink.**

I/we, ____________________________, the owner(s) of the subject property, understand that by completing this form I/we hereby authorize ____________________________ to act as my/our agent. I/We understand that said agent will be authorized to submit applications on my/our behalf. I/We also understand that once an application has been submitted that all future correspondence will be directed to said agent.

**ALL PROPERTY OWNERS OF RECORD MUST SIGN THIS FORM**

**Plot Plan/Map Checklist**

Provide as much of the following information as possible. More information will provide the staff with a better understanding of existing conditions on the site.

- a. Drawn to a standard **engineering** or **architect** scale. Indicate the scale.
- b. North arrow.
- c. Location, dimensions, and area of full extent of land included in proposal.
- d. Location and size of existing and proposed buildings and other improvements, including, drainfields, wells, fences, driveways, entrances, and exits serving each structure, off-street parking and loading areas, and bulkheads.
- e. Setback distances between property lines and structures.
- f. Location and amount of proposed open space.
- g. Location of existing and proposed roads.
- h. Total area of the site & square feet in paved or other impervious surfaces.
- i. Show all easements & label with the existing and intended use.
- j. Drainage. Show existing drainage systems and the direction of the water flow.
- k. Grading (excavating) Plans. Show existing and proposed finished grade contours for any cut or fill 2 feet or greater in height in plan view and cross sections. Indicate quantities of fill or excavation in cubic yards. For any material exported from the site, state quantity and where materials will be disposed. For any materials imported to the site, indicate quantity, source and type of materials.
- l. Indicate location of water lines, well, and any pollution control radius around wells both on and off your site.
- m. Location of all soil test holes on each proposed lot. Also, location of septic tank, drainfield, and reserve area. Indicate if hooked up to sewer.
- n. For a subdivision, show location and dimensions of all proposed and existing lots.
- o. Land features. Show top and toe of all slopes, direction of slope, percentage of slope or slope angle, seasonal drainage ways and soggy areas, ditches, ravines, lakes, ordinary high water mark of shoreline, etc.
- p. Critical Areas. Show streams, wetlands, protected species habitat, geological hazard areas, & archaeological sites and their buffers on or within 100’ of the site.
- q. Existing and proposed vegetation. Please be specific about the types.
- r. Clearing Limits. Show areas where existing trees & brush will be cut or removed.
- s. Title block on the lower right corner of plat map including:
  - i. Site address if assigned,
  - ii. Assessor parcel number(s) of the parcel proposed for division, and
  - iii. Total area of the site and area of each proposed and existing parcel or lot.
  - iv. Name, address, and telephone number of applicant(s), and fee owner(s), and
  - v. Date of drawing.
