Synopsis / PC for Arrest
(Include all elements of the crimes charged)

On October 1, 2009 a private airplane crashed nearly 3 miles from the Gleyre residence, within the boundaries of Snohomish County. Subsequent investigation revealed that Harris-Moore was in possession of that plane. This was accomplished by analysis of DNA from inside the plane, which positively matched Harris-Moore's DNA. Within the boundaries of Snohomish County between 1600 hrs on October 2, 2009 and 1938 hrs on October 4, 2009; Colton Harris-Moore unlawfully entered the late residence of Sheila & Robert Gleyre at 20819 Menzel Lake Rd. in Granite Falls, Washington. Entry was gained forcefully, by prying a door. Once inside, Harris-Moore unlawfully removed multiple items of personal property, food, passports, a firearm (a Jennings .22 caliber pistol) and ammunition. During the ensuing police response and investigation, a light was seen in the wooded area behind the residence. Deputies investigated and discovered a hasty campsite in the secluded vegetation, which is not on a normally traveled area to the public, nor to the Gleyres. Personal property from within the Gleyre residence was found in that camp. A Snohomish County Sheriff's Office K-9 team responded to track the suspect from the camp and during that track; a gunshot was fired in close proximity to the deputies. A SWAT callout followed, but the suspect was not located. Detectives processed that camp and the residence the following day and latent fingerprints were recovered from some of the property in that camp; including those on a mirror that was stolen from within the residence. Later, all latent fingerprints were then sent to the Washington State Patrol Crime Lab for analysis and identification. Additionally, a .32 caliber firearm and over \$7,000.00 in cash was found co-mingled within the campsite. The cash was contained within 2 Key Bank bags. Subsequent investigation and collaboration with the Royal Canadian Mounted Police (RCMP) revealed that the .32 caliber pistol was identified as having been stolen at the Creston B.C. Airport on September 25, 2009. Subsequent investigation and collaboration with the San Juan County Sheriff's Office revealed the Key Bank bags were positively identified as having been stolen in a burglary there on September 5, 2009; which included the theft of over \$2,000.00. On October 14, 2009 the WSP Crime Lab published a finding that a latent fingerprint was identified from the mirror that was found in the hasty campsite mentioned earlier. It was positively identified as the left thumb of Colton A. Harris-Moore, 3/22/1991. The investigating detectives did not find the presence of any other person in the hasty camp behind the Gleyre residence; nor did they find any evidence to suggest more than one person committed the burglary. The presence of Harris-Moore's thumbprint shows that he was in possession of the stolen .32 caliber pistol from Creston B.C., the stolen Key Bank bags and cash from San Juan County and the stolen property from within the Gleyre residence. The campsite (which contained all of this property) immediately behind the Gleyre residence, in a remote wooded area, clearly shows that Harris-Moore committed the burglary to the Gleyre

Synopsis / PC for Arrest
(Include all elements of the crimes charged)

On 10/01/2009 Snohomish County Auto Theft Task Force (SNOCAT) Supervisor, Detective E.J. Swainson and I responded to a recovery of a stolen aircraft in Granite Falls, Wa, within Snohomish County. The general location for the aircraft was identified as the "end of the Scotty Road off of Menzel Lake". On arrival, the plane was in a clear-cut area off of a side (spur) logging road roughly 3.7 miles from the gate. From the logging road the top of the plane and a partial wing could be seen. The majority of the plane was not easily visible. The plane was about one hundred yards from the logging road. Detective Sgt. Swainson and I approached the plane on foot. The footing was very uneven and several holes posed hazardous obstacles for us. There was extensive damage to the plane. Due to time of day a decision was made to secure the site and have deputies remain vigilant for site security. Arrangements were made to have specially trained officers and deputies to respond the following day (Friday). These officers would perform tracking skills with the intent to locate subject(s) in the area associated with the downed plane.

The Washington State Crime Lab was contacted by Detective Sgt. Swainson to assist in processing the plane 10-02-2009 (Friday morning). Essentially, the interior of the plane may provide clues to who may be involved in the plane theft from Idaho. The tail number (2006 Cessna T182) was identified as N2183P was confirmed stolen from Idaho. The plane was blue and white in color and a value was eventually identified as \$340,000.00. At this time Colton Harris-Moore was believed to be responsible for the aircraft theft in Bonners Ferry, Idaho.

Mr. Scott Redhead from the Washington State Crime Lab and two other investigators arrived about 1030hrs 10-02-2009. I led the group to the crash site. DNA swabs were taken from the interior of the plane. Mr. Redhead processed latent prints from within the plane, too. His co-workers are identified as Ms. Mary Wilson and Ms. Mariah R. Low. Several DNA swabs were collected by the Washington State Crime Lab employees from the location, pictures taken and latent fingerprints were attempted. I was told there might be a delay in processing the evidence due to other pending cases. I provided the Washington State Crime Lab employees my business cards and phone numbers for each to contact me should there be any questions or follow up requests needed from me.

I certify or declare under the penalty of perjury under the laws of the State of Washington that the foregoing statement is true and correct. (RCW 9A.72.085)

SNOHOMISH COUNTY SUPERFORM

On 10-17-2009 at about 0457hrs. a 2003 GMC Yukon (Lic#PFO1515) was a reported stolen vehicle recovered by officers in Stanwood. The vehicle was towed to Snohomish County Sheriff's Office north prescient and placed in a secured storage area. The Yukon was taken from a location near the plane crash/recovery site. The Washington State Crime Lab was contacted with Mr. Scott Redhead responding to assist with the investigation. The interior of the Yukon was processed for latent fingerprints. Several DNA swabs were gathered by Mr. Redhead.

In both instances, Colton A. Harris-Moore was believed to be the primary suspect for the stolen/recovered Cessna plane taken in Idaho, and the stolen/recovered GMC Yukon was within a reasonable distance of the plane crash in Granite Falls. All indications pointed to Colton A. Harris-Moore. The assistance of the Washington State Crime Lab was determined to be essential in indentifying the subject responsible for the aircraft theft/recovery, and the GMC Yukon theft/recovery.

The identity of Colton A. Harris-Moore was confirmed by DNA test results sent by Ms. Lisa A. Collins, Forensic Scientist from the Washington State Crime Lab. Ms. Collins completed a comprehensive report signed 12-01-2009 clearly identifying Colton Harris-Moore as the subject linked to the stolen/recovered Cessna Airplane and the 2003 GMC Yukon. Colton Harris-Moore did not have permission to take or use either means of transportation.

Colton Harris-Moore is charged with:

- 1) Possession of Stolen Property 1 (RCW 9A.56.150), Cessna T182 Airplane
- 2) Theft of Motor Vehicle (RCW 9A.56.065), 2003 GMC Yukon

Please refer to case report SO09-19910 for further details. Several other police agencies have active criminal case investigations involving Mr. Harris-Moore.
